

The Launch Place

Internship Opportunities

The Launch Place energizes and diversifies our regional economy through entrepreneurship development and business consulting services.

The Launch Place provides high quality business consulting services to start-ups, private businesses, economic development entities, non-profit organizations and local governments resulting in measurable business outcomes. Through its consulting services, the Launch Place assists in job creation and retention, development of more diversified tax base, increased capital investments and sales, and business management training and education.

The Launch Place provides in-depth business consulting services to companies in the areas of: Business Plan and Proposal Development, Competitor Analysis, Market Research and Analysis, Financial Modeling, Industry Analysis, Feasibility Studies, Organizational Analysis, Mergers and Acquisition, etc. Business consulting services are provided by The Launch Place staff consultants, outside expert consultants and faculty and student interns from regional colleges and universities.

The Launch Place also works in-depth with entrepreneurs who want to start and/or grow their business. We offer a full range of services, from mentoring, training, to funding, all of which are designed give entrepreneurs the tools they need to navigate the challenging start-up stages and successfully launch their company. The Launch Place manages two equity funds which provide seed funding to start-up companies that meet the investment criteria.

The Launch Place is providing full and part-time paid, long-distance and in-house internship opportunities for students majoring in business, economics, marketing, and/or technology related fields. Internships are offered in the area of business consulting, financial and investment analysis, and social media marketing. Intern duties may vary depending on organization's needs and the abilities and interests of each intern.
